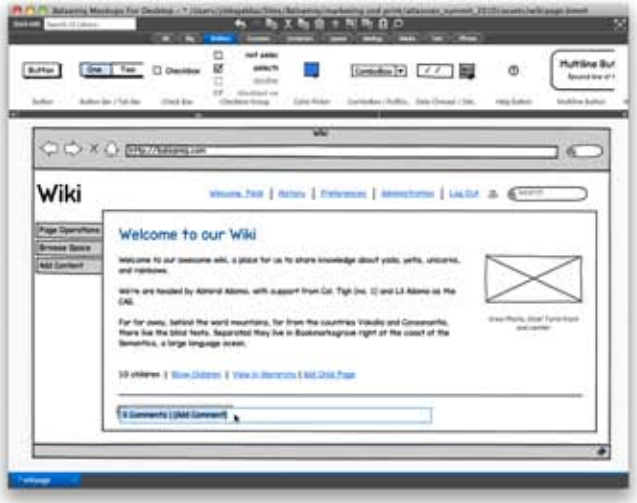
balsamiq

we add flavor!



"Prototyping is the Way of the Future, and Confluence+Balsamiq is bringin-it" - Jay Morgan
http://is.gd/b0h92

"I thought nothing could beat @Balsamiq Mockups... low and behold, Balsamiq Mockups for Confluence might have done just that" - Jim Geurts
http://is.gd/b0hcX

"By combining the power of Confluence with Balsamiq I was able to take collaboration and communication to the next level. It has already made a real impact on my productivity and quality of work." - Charles Pham, CustomWare http://is.gd/b0hhl

"So easy, the "marketing" guy can use it" - Jay Simons, Atlassian
http://is.gd/b0hjT

"I have a man-crush on whoever built this. So freaking good." - J. Toeman

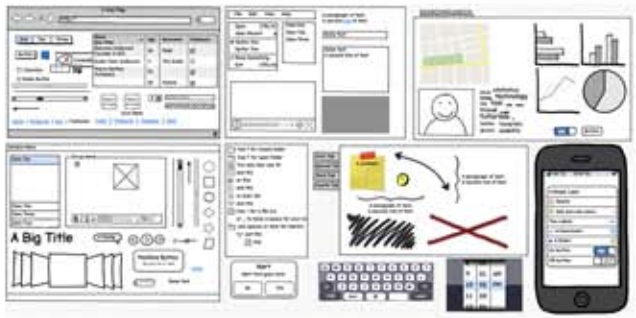
Balsamiq Mockups

Life's too short for bad software

- Create software mockups in minutes
- Collaborate with your team
- Focus on creating your product
- Tightly integrated with Confluence and JIRA
- Works in the browser or on your desktop

We try to recreate the experience of sketching a user interface with pencil and paper, but on the computer. The sketchy wireframes created with Mockups are easy to share, tweak and discuss openly.

You can use it alone to help you think through a UI or with your team, in real-time, in the course of a meeting.



With 75+ control types available, you'll be wireframing in no time. It's really that easy.

about balsamiq

- Located in Bologna, Paris, NYC, Boston, and San Francisco.
- 40,000+ customers worldwide
- We like to compete on usability and customer service.
- Small team of good people: we donate tons of licenses to do gooders, non-profits, high-schools and lots more.

Pricing

Your plugin license doesn't have to match your Confluence or JIRA license. You can start with a 3-editor license for just $149 and take it from there. See our website for the full price list.
